

TIS40

Pre Separator

When large amounts of dust are produced during the grinding process, it is advisable to use a pre separator. The special cyclone system captures up to 95% of the material before it reaches the vacuum, this greatly improves the filter efficiency and protects your dust extractor from clogging easily. TIS40 can be used in conjunction with all common industrial vacuums and dust extractors.

Product Details	
Collection	Continuous drop-down bag
Dimension (mm)	600x700x1,250/1,520
Weight (kg)	40

Main Features

- More efficient work performance without interrupted often to clean the filter.
- Continuous bagging system to collect the dust easily.
- Low cost maintenance

Premium Quality

Non-marking wheels lockable front castors

X60

Cyclone Separator

X60 works well with different vacuum cleaners. Collecting >90% dust, which makes less dust enter the vacuum cleaner, extending the vacuum's working time, protecting the filters in vacuum and extend the life of the filters.
